Please answer for your child (ages 4 to 11). Check the boxes that fit. If nothing fits, check "No" or "None." If you are not sure, check "Not sure." Your answers are private and do not change whether your child gets care today.

1. ILLINOIS LEAD RISK QUESTIONS required for children 6 months through 6 years P12

Illinois law: ALL children get a blood lead test at 9 to 12 months and again at 24 months. Ages 3 to 6 answer these questions every year. Any Yes or Don't Know means a blood lead test at the visit. Children who live in Chicago or a high-risk ZIP code get a blood test no matter the answers. This is required for day care, preschool, and kindergarten.
